

## CUMMINS-C&G RECEIVES RECOGNITION AT THE GENDER MAINSTREAMING AWARDS 2023

Cummins Car & General yesterday received 2 awards in the Gender Mainstreaming Awards by Business Engage, having been nominated by Cummins International for the prestigious Business Engage Gender Mainstreaming Awards 2023. The accolades poured in as the Cummins C&G team emerged victorious in not one, but two categories: the 'Investing in Young Women' award and the 'Mainstreaming Gender and Disability' award.

Gender mainstreaming isn't just a buzzword; it's a powerful movement that demands action. It encompasses gender-specific initiatives and affirmative actions that bridge the gaps between various groups in society; targeting women, men, people with disability, youth among others.

Cummins C & G has continuously shown their support for gender equality by their gender representation in the workplace. Out of a population of 65 employees, 28 are women; short of only 4 to make a 50-50 gender representation. They have set the stage for women and men from diverse economic backgrounds, opening doors for greater heights.

Cummins C&G doesn't stop there. They actively engage in programs that touch on people with disability. Their commitment to The Treeside School for the deaf and their support to Karen Technical Training Institute are among such programs that help create better opportunities and a brighter future for persons with disabilities.

The moment of triumph arrived when Mr. Sangoro, the general manager of Cummins C&G stood tall to receive the prestigious award on the behalf of his dedicated team. The journey towards gender equality and inclusion is a beacon of hope, a testament to what can be achieved when businesses prioritize diversity and take meaningful action as part of the business sustainability plan.
